

2 YEAR SCHOOLS (RCGC and others)

To access the free online application, students must visit www.RCGC.edu/Apply and click on Apply Now (top middle portion of the page). Next, students will create a temporary login ID and PIN that is specifically used for the application (you will not need this again if you finish your application in one sitting). After they create their temporary login ID and PIN, students should select High School Priority Admissions under application type and then proceed to filling out the rest of the application. Once completed, students are encouraged to print out a copy of their confirmation page and show it to Mr. D'Ottavio for a congratulatory gift (limited number available, first come, first serve).

Check other schools in the area you may attend (Cumberland, Camden, Atlantic-Cape), and apply if they have a program you are interested in, and do your application now. Remember to ask me to send your transcripts.

If you are interested in 2 year schools with housing (so you can move away, it's more expensive, but it's an option), check out Northampton Community College and Lakawanna College both in Pennsylvania.

Rowan University in Glassboro has a choice program where you take the first year at RCGC and live in Rowan dorms (more expensive than living at home, of course) information here: <http://www.rowan.edu/choice/>
